Guideline to implement Auto Margin Call Execution in OMS

1. Intraday price fluctuations shall be ignored. All calculations shall be based on the Previous Day's Closing Price (YCP).
2. Suspended/Floor securities shall be excluded from execution, and only eligible securities shall be considered for sale. (BEXIMCO, UNITEDAIR etc.)
3. The following sequence shall be followed:
   a. Non-Margin Instruments (100%)
   b. Instrument Categories will be in the order: Z, N, B, A
   c. Securities with higher P/E ratios shall be sold first
4. Any unsold quantity due to no buyer or lower circuit shall be carried forward to the next trading session.
5. Selling shall continue until the EDR is restored to 175% or above.
6. All sell orders shall be placed as Market Orders.
7. Force Sell shall be executed only in client codes maintained under EBLSL. There will be a provision/ options to incorporate force sell in Merchant Banks codes.
8. Provision/ options for Negative equity codes for Force Sell shall be maintained separately.
9. All other terms shall be as per BSEC Margin Rules 2025.
